

NGUYEN TRONG DAT

DATA ANALYST

As a graduate in Information Technology with considerable experience in office and corporate environments, I am eager to apply for a Data Analyst internship where I can leverage my knowledge, enhance my skills, and make a meaningful contribution to the organization. I am committed to learning from industry experts, working diligently, and building positive relationships with colleagues in a multicultural setting. Over the next three years, my goal is to develop into a skilled professional and contribute significantly to the company's success.
